

Master's Programs in Arts and Sciences

The College of Arts and Sciences offers graduate degree programs in Biology, Chemistry, Communication Sciences and Disorders, Criminology, Cultural Studies, Music (Music Education, Performance, and Conducting), Nutrition, Petrophysics, Psychology (Counseling Psychology and General Psychology), and Social Work.

In addition to these degree programs, students may pursue supporting fields of study and access specialized resources in these disciplines as well as in Communications, English, Geology, History, Mathematics, Physics, Political Science, and Spanish. Together, these programs provide interdisciplinary opportunities that support advanced scholarship, research, and professional development across a wide range of academic and career pathways.
