

Individual Review Criteria

Individual Review Criteria

Students who do not meet the assured admission criteria can be admitted through Texas A&M-Kingsville's individual review process. This process involves a holistic review of academic achievements, extracurricular activities, community service, talents, awards, and other factors that support a student's ability to succeed at Texas A&M-Kingsville. We encourage applicants who do not meet assured admission criteria to highlight their achievements on their Apply Texas application.

Please include your personal statement and letters of recommendation from core subject teachers: Math, Science, English, and Social Studies.

It can take up to seven days to process regular applicants. All students who are reviewed without test scores will go through the individual review process and committee review. It can take two weeks to a month to consider students in individual review based on what the applicant submits. We oftentimes request more information to make a decision.
