

Returning Student

Former students who have had a break in enrollment of more than two years at this university must update their records by submitting a readmission application to Texas A&M-Kingsville, available online at the GoApplyTexas.org website. Those who have taken college work at another institution must request that official transcripts be sent to the Office of Admission. Readmission will be granted if a student is in good standing (a 2.0 overall grade point average or 2.50 for the College of Engineering) and does not have more than three (3) Enforced Withdrawals at Texas A&M-Kingsville. If the student has attended other institutions after their last date of attendance, the student may be considered a transfer student after the file is reviewed.

Students who do not meet published readmission criteria do not qualify for automatic readmission to Texas A&M-Kingsville. Readmission students in this category who wish to receive further review must contact the dean of their academic college for consideration. If their academic dean recommends admission, students will be admitted with an academic status of Scholastic Probation and must maintain a 2.0 grade point average during their first semester of reenrollment at Texas A&M-Kingsville. Failure to maintain a 2.0 grade point average during the first term of reenrollment will result in dismissal from the institution.
