The School of Social Sciences is committed to the goals of a liberal education by fostering intellectual growth through the study of human behavior, social institutions, history, government, culture, and the criminal justice system. The school prepares students to think critically, communicate effectively, conduct meaningful research, and engage thoughtfully with the complex social, political, and cultural issues that shape local, national, and global communities.

Faculty are dedicated to excellence in teaching, research, and service while providing students with opportunities for undergraduate research, experiential learning, and community engagement. Through interdisciplinary study, students develop the analytical, quantitative, and communication skills needed for careers in public service, education, business, law, criminal justice, government, social services, and other professional fields, as well as for graduate and professional study.

The school promotes critical inquiry and innovative approaches to understanding individuals, communities, and societies, with particular attention to the well-being of South Texas and the U.S.–Mexico border region. Programs emphasize human development, social interaction, cultural awareness, public policy, governance, criminology, counseling, family and community studies, Mexican American culture and folklore, borderlands studies, and the historical forces that shape contemporary society.

The school offers undergraduate degree programs in Criminal Justice, Criminology, History, Political Science, Psychology, and Sociology, along with a variety of minors that complement students' academic and career goals. Students are encouraged to work closely with faculty advisors to develop academic plans that align with their educational interests and professional aspirations.
